

About Me

I am a passionate Frontend Developer committed to crafting seamless and engaging digital experiences. I believe in writing clean, efficient code and delivering designs that are both beautiful and highly functional. I thrive in collaborative teams, constantly seek growth, and stay up-to-date with the latest industry trends. My goal is to create solutions that make a real difference for users and businesses alike.

Professional experience

iPost *Frontend Developer* 2024/11 - present

- I am a Frontend Developer with over one year of experience, currently working at iPost Cargo Company. I've contributed to the development of admin panels, automation tools, and landing pages using modern frameworks like React.js, Next.js, and Vue.js.
- Developed and maintained multiple production-grade web applications using Vue.js, React.js, and Next.js.
 - Actively contributed to a WMS (Warehouse Management System) mobile application built with React Native, focusing on real operational workflows.
 - Implemented features for warehouse processes such as data visualization, status tracking, and user interaction flows.
 - Worked with maps and location-based functionalities, integrating them into business-critical features.
 - Improved application performance through optimization techniques, resulting in smoother user experience.

ITTRANSITION *Web developer / Internship* 2024/08 - 2024/10

Gained hands-on experience in problem-solving, API integration, and backend development. Worked on real-world projects, collaborating with developers to optimize performance, debug issues, and enhance system functionality. Strengthened skills in full-stack development and efficient code implementation.

Binary Inc *Frontend Developer | Part-time* 2023/10 - 2024/05

At Binary, a software development startup focused on delivering high-quality digital solutions, I worked as part of a team to build websites, CRM systems, and e-commerce platforms tailored to client needs. I gained valuable experience in React, TypeScript, and REST API integration while contributing to both frontend features and user interface design. My responsibilities included developing responsive layouts, ensuring performance optimization, implementing client feedback, and collaborating closely with backend developers to deliver seamless web experiences.

Skills

Html, Css, Sass	Ant-Design, MUI, Shadcn-UI
Tailwind, Bootstrap	Vue.js, Nuxt.js
JavaScript, TypeScript	VueX, Pinia, Vue-router
React.js , Next.js	PrimeVue, Element-plus, NaiveUI
